Westies Raised the Natural Rearing Way
For a Long Life of Wellness and Well Being

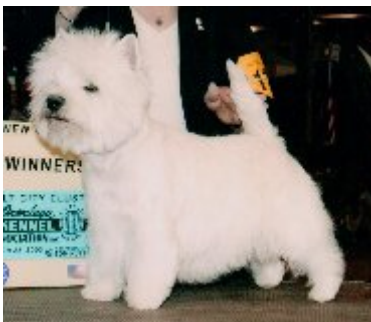

Dear Bravo!

My oldest naturally reared Westie, Reba, **Ch. Bonnie Brier Sittin' Pretty**, was a Group winner bitch when she was campaigned. Now retired, Reba has been eating raw since weaning. I only use BRAVO raw foods because of the quality of the products, the convenience of packaging and the stellar job the gang at BRAVO do for me when I put in my orders and pick up my food. They are always willing to answer any question I have about their products. I only recommend BRAVO to all the guardians who acquire my NR puppies, or anyone else for that matter. I have never had a complaint, nor have they, with any of the foods they feed and the proof is in the awesome health of the dogs.

Vestry, **Ch. Bonnie Brier Dealer's Choice**, has been BRAVO raw fed his whole life. He had glowing health, stamina and athletic ability to keep up with his showing campaign and that has not changed since being retired. BRAVO meat patties made it easy to feed him when we traveled to dog shows. There just isn't any reason not to feed BRAVO.

Dillon, **Ch. Bonnie Brier I Wanna Be A Cowboy**, is the latest in the line of raw fed, naturally reared Westies who eat BRAVO. During his show career he maintained excellent health and condition so I know BRAVO foods give him all that he needs for an athletic dog. When people asked me how I keep him in such sound condition I replied, I feed him BRAVO raw food! Diet is the foundation to good health. BRAVO is the only diet of the Bonnie Brier naturally reared Westies.

Our three Champions:

Vestry

Dillon

Reba
